**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/643,322	<b>Applicant(s)</b> KADUSHIN ET AL.	
	<b>Examiner</b> Lyle A. Alexander	<b>Art Unit</b> 1797	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1,3-5,30 and 32-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 stipulates the sample contains “an indicating” agent that is necessary for the operation of the device. It appears Applicants are claiming the sample as part of the device. Additionally, it is not clear how the protective coating is placed over the indicating agent and complement such that the sample can still react. Is the coating selectively permeable to the indicating reagent?

***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1,3-5,30 and 32-33 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Tomita et al.

See the appropriate paragraph of the 6/22/07 Office action for the teachings of Tomita et al.

***Response to Arguments***

Applicant's arguments filed 12/26/08 have been fully considered but they are not persuasive.

Applicants' describe the coating as being permeable to the indicating agent. If such limitations were added in a timely manner, it would clarify this 35 USC 112 second paragraph issue.

Applicants' state Tomita et al. fail to teach the claimed "indicating agent" operatively associated with the substance in the sample. The Office has read the claimed "operatively associated" as meaning any type of associated that would vary from a split second to a permanently bound. The claim language "operatively associated" is sufficiently broad to have been properly read on the UV radiation penetration the cover and association with the various "indicating agents" beneath the cover. Clarification could possibly be achieved if timely amendments were to specify a specific concentration range of the agent with the sample or binding of the agent with the sample prior to substrate exposure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lyle A. Alexander whose telephone number is 571-272-1254. The examiner can normally be reached on Monday, Tuesday and Thursday.
